

Thank you for taking this survey. It includes just a few questions from each of several Education Working Groups in preparation for the upcoming All Scientists Meeting (ASM). If there is someone else at your site that could better answer some of the questions, please pass it along and encourage them to respond.

If you have any questions about this survey, contact me at:

Alan Berkowitz

berkowitza@caryinstitute.org

845-677-7600 ext. 311.

Thanks!

* 1. Please enter your name.

* 2. Please enter your LTER site.

* 3. Please enter your role in the LTER, and your job title/institution.

4. How is your site using LTER datasets in your education work? Please mark all that apply.

- We don't use datasets in our education work
- We use datasets from our LTER site in our K-12 work
- We use datasets from other LTER sites in our K-12 work
- We use datasets from my LTER site in our work in undergraduate teaching
- We use datasets from other LTER sites in our undergraduate teaching
- We use LTER datasets in our work in Citizen Science
- Please explain any other education use your site makes of LTER datasets.

5. How does your site make LTER datasets available for education purposes? Please mark all that apply.

- Directly from the sites' research data repositories.
- From EcoTrends.
- From EDI.
- Via datasets specifically tailored for education purposes.
- Embedded in on-line or printed instructional materials.
- Please explain any other ways you make LTER datasets available for education.

6. What LTER datasets have you used or are currently using for education? If too many to list, please list the most frequently used datasets. Be sure to indicate if these are datasets from your site or from other sites.

7. What are your main objectives for using and/or making LTER datasets available for education?

8. What challenges have you experienced and/or do you anticipate in using LTER datasets for education?

9. What opportunities do you see for more and/or better use of LTER datasets for education?

LTER Education Planning Survey - 2018

Citizen Science Working Group Questions

10. What Citizen Science project(s) is/are your site hosting or running?

11. How are the data collected being used?

12. Are the data accessible to others outside of your site? If so, please explain.

LTER Education Planning Survey - 2018

NGSS Working Group Questions

13. How familiar are you with the Next Generation Science Standards (NGSS)?

- Not at all
- Somewhat familiar
- Familiar
- Very familiar

14. Have you aligned any of your curriculum materials to the Next Generation Science Standards (NGSS)?

Yes

No

If yes, please describe.
