

RESEARCH COORDINATION NETWORKS IN UNDERGRADUATE BIOLOGY EDUCATION (RCN-UBE; NSF 18-510)

Proposal deadline: 22 January 2019

The RCN-UBE program funds the creation of networks of researchers, educators, and other stakeholders that improve undergraduate biology. Among other things, awards can be used to build community, develop standards, address interdisciplinary topics, and minimize duplication of efforts. The theme of an RCN-UBE proposal can be any topic likely to improve undergraduate biology education.

Informational webinars:

- Noon ET, 9 November 2018 (Friday)
- 4:00 p.m. ET, 13 November 2018 (Tuesday)

Register for a webinar [here](#) or follow the QR code. Connection information is on the registration page.

RCN-UBE is jointly managed by the Directorate for Biological Sciences and the Directorate for Education & Human Resources.

Potential themes:

Active learning
Course-based research experiences
Incorporating subdisciplines into curricula
Service learning
Quantitative reasoning
Biological literacy
Assessment
Transfer success
Engaging underrepresented students
Computational thinking
Professional development

Full awards: up to \$500K, five years
Incubator awards: up to \$75K, one year

A list of recent awards can be found at the [program summary](#).
