

## David L Nieland

---

**Subject:** Postdoctoral Fellowship in Microbial Ecology at Michigan

A Postdoctoral fellowship is available immediately to study links between composition and function in soil microbial communities and how they are modified by environmental change. Candidates must have a Ph.D. in microbial ecology, soil microbiology, biogeochemistry or closely related field at the time of appointment. Expertise with molecular techniques is required. Experience with high throughput sequencing, metagenomics, transcriptomics and associated bioinformatics is preferred.

The initial appointment period will be for one year with the potential of renewal. Applicants should email a cover letter describing research experience and goals, a curriculum vitae, relevant publications, and the names and addresses of three references to

Dr. Donald R. Zak  
School of Natural Resources & Environment, University of Michigan Ann Arbor, MI 48109-1041 E-mail address:  
[drzak@umich.edu](mailto:drzak@umich.edu)

Closing date is November 15th, 2015.
