

Hubbard Brook Committee of Scientists Meeting  
 Hubbard Brook (Various Locations)  
 July 15, 2016 - 9:00 am - 3:00 pm

<b>Views from the field: New researchers and novel insights at Hubbard Brook</b>			
<b>Begin</b>	<b>End</b>	<b>Presenter</b>	<b>Title Location</b>
9:00 am	9:45 am	COS Business	Headquarter – Main Meeting Room
10:10	10:30 am	Rebecca Sanders-DeMott (PhD Student, Boston University)	Climate Change Across Seasons Experiment (CCASE) and DroughtNet  <i>North of Headquarters (~5 minute walk)</i>
10:50	11:10	Richard Marinos (PhD Student, Duke)	The influence of Ca, pH and Si on SOM decomposition and plant-soil feedbacks  <i>Pleasant View Farmhouse</i>
11:25	11:45	Ashley Lang (PhD Student, Dartmouth)	Understanding the influence of White Ash on soil biogeochemistry  <i>Near Valley-wide plots (20 feet off road)</i>
12:00pm	12:20	Charles Driscoll (Syracuse University)	Soil water and stream water response to wollastonite treatment  <i>Watershed 1</i>
12:30 pm	1:00 pm	LUNCH	
1:15 pm	1:35 pm	Angela Possinger (PhD Student, Cornell)	Spatial and chemical characterization of mineral-organic associations in spodic horizons  <i>TBD</i>
1:50 pm	2:10 pm	Natalie Cleavitt (Cornell)	Demography studies on round-leaved orchids and sugar maple seedlings  <i>Wedge between W5 and W6 - Park at W5</i>
2:30 pm	2:50 pm	Wendy Luenberger (MS Student, SUNY-ESF)	Ice Storm Experiment: Insects and Birds  <i>Ice Storm Experiment</i>
3:00 pm			Adjourn
